BMW Z4

2006/2007

Accessories

Stunning individuality. Faultless functionality.

When a car looks as good as the Z4, and delivers such awesome performance, who cares about practicality? Well, BMW cares. And so do Z4 owners. Z4 may be a delight to drive, hood down, when the sun is shining, but it's more than just a fair-weather friend. Year-round use in all conditions only serves to prove the depth of its engineering integrity – especially if you select the accessories to suit your needs from the wide range of BMW-approved items in this brochure. All, naturally, made to the same exacting standards as the Z4 itself.

Company Car Taxation

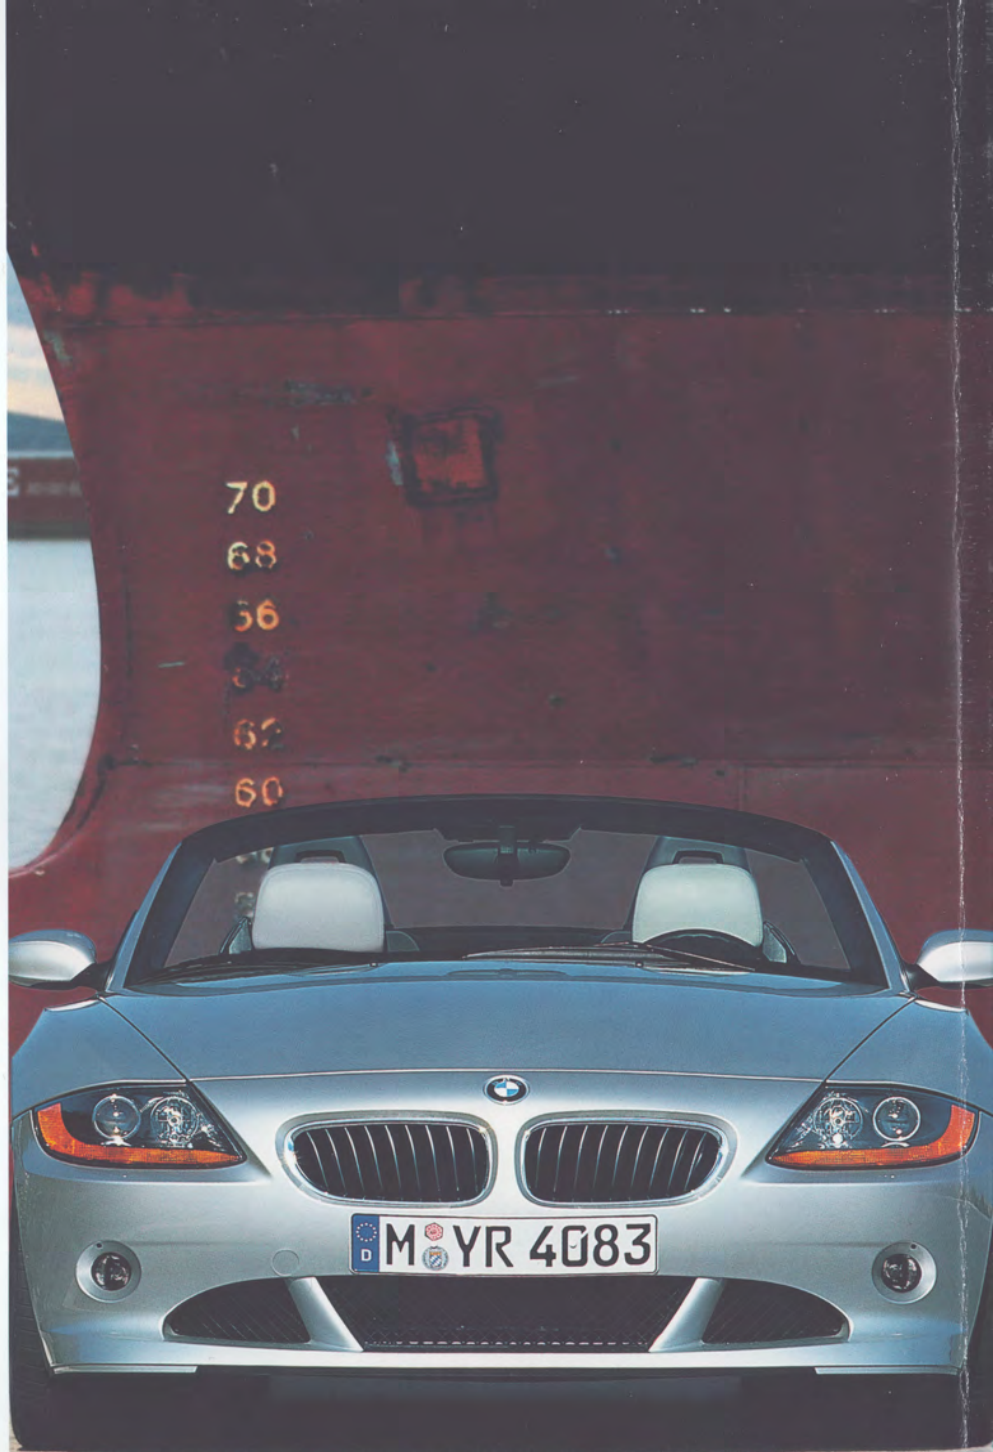

On 6 April 2002 the way Company Car Tax is calculated was changed. The tax charge is now based on a percentage of the car's price, graduated according to the level of CO₂ emissions. If you are considering taking a company car now, that you intend to keep for more than two years, this new legislation will affect you. The amount of the taxable benefit will also increase year-on-year. The Official Fuel Economy Figures range for the Z4: Z4 2.2i: Extra Urban: 40.9–42.2mpg (6.9–6.7 litres/100km) Urban: 20.6–22.1 (13.7–12.8 litres/100km) Combined: 30.4–32.1 (9.3–8.8 litres/100km). Z4 2.5i: Extra Urban: 40.9mpg (6.9–7.3 litres/100km) Urban: 22.6mpg (12.5–13.5 litres/100km) Combined: 31.7mpg (8.9–9.5 litres/100km) CO₂ emissions: 16–231g/km. Z4 3.0i: Extra Urban: 42.8mpg (6.6–7.3 litres/100km) Urban: 20.9mpg (13.5–13.5 litres/100km) Combined: 31.0mpg (9.1–9.5 litres/100km) CO₂ emissions: 221–231 g/km. The model range referenced for best and worst figures, Imperial (mpg) / Metric ltr/100km and CO₂ (g/km).

All prices in this brochure include VAT but exclude painting and fitting. Your BMW Dealer will be happy to advise you of fitted prices.

A more individual driving experience starts here. You've picked your dream car: a stunning 21st Century open-top sports car with blistering performance and handling. Now it's time to give it the final touch.

A set of alloy wheels? Aerodynamic packages? Or maybe mobile communications, to keep you on the right road? With BMW accessories, you have a world of choice, to give your Z4 truly individual style. From spoilers to security, and from luggage systems to high-tech matt chrome interior trim, the Z4 accessories range has been created in partnership with the BMW design and engineering teams. So each accessory not only looks right, it performs, too.

Financing your accessories.

Individualise your BMW with the help of BMW Financial Services.

BMW Financial Services can offer you an affordable way of financing* your chosen accessories, whether it's the latest body styling kit or simply a new set of alloy wheels you desire for your BMW.

To find out more about accessory financing, contact your local BMW Dealer today.

* Minimum and maximum balances and total number of payments apply. All finance is subject to status and available to over 18s in the UK only (excluding the Channel Islands). Guarantees and indemnities may be required. Written quotations are available upon request from BMW Financial Services, Europa House, Bartley Way, Hook, Hampshire, RG27 9UF.

Exterior styling.

A car this distinctive deserves wheels to match. BMW alloy wheels aren't just good-looking. They're also designed specifically for the handling characteristics of each model. So whichever design you pick for your Z4, you can be sure it will deliver real benefits in road-holding, as well as adding a touch of individual style.

Only detour when you want to. BMW's latest navigation systems can find you the shortest and the quickest routes to your destination. But if you want to take the long way home, we understand...at the wheel of a car like the Z4, it's only natural to want the journey to last a little longer.

Professional navigation system with route map. The BMW Professional navigation system, with its 16:9 display which pops up out of the dashboard, directs you with the aid of the Global Positioning System (GPS) with reliable accuracy to within ten metres of your destination. Navigation is performed by means of a route map – different scales can be selected – and/or direction arrows. In each case, you are supported by voice messages.

Please consult your local BMW Dealer for further details.

Safety and security.

Taking care. Be prepared for anything, with accessories designed to give you and your BMW the highest possible levels of safety and security.

Safe travel from the very first journey. BMW has done a great deal of research and development to help your children travel safely, right from the first journey. The result is BMW's own unique range of child safety seats. As your child grows, the seats can be adapted to meet the changing requirements of weight and body size. The seats are designed to give the maximum comfort for young travellers and are upholstered in soft, durable and fully washable materials. For the greatest possible safety, the BMW Baby Seat 0+ and Junior Seat I-II are also available with the ISOFIX facility, connecting them securely to the car's bodyshell.

Make the right choice. Because it's vital to choose exactly the right product for your child's age and weight, BMW has produced a separate brochure displaying the full selection of child safety seating.

Please consult your local BMW Dealer for further details.

ISOFIX seats are only available for cars with option 470 (ISOFIX).

If your BMW disappears, TRACKER always keeps track of it.

Car thieves are becoming more sophisticated. Fortunately for you, so is BMW's additional security.

BMW is a company of constant innovation. This on-going programme includes the advancement of anti-theft devices for your car. If your car already has security equipment, it is likely that BMW's additional security can up-grade the factory-fitted system you presently rely on. This includes the availability of the ultimate car recovery system, TRACKER which is now able to locate cars in France and Spain as well as mainland Great Britain. Many of the products featured may entitle you to a reduction in your car insurance premiums.

TRACKER Retrieve

If your vehicle is missing, alert the police, then call the TRACKER Control Centre. They will activate the homing signal, enabling the police to locate your car.

TRACKER Monitor

This system includes a movement sensor which alerts the TRACKER Control Centre for you. Any attempt to move the car without the key will result in TRACKER staff contacting you to ascertain that the vehicle's movement is illicit. If the suspicion of theft is confirmed, the homing signal is activated for the police to locate.

TRACKER®

TRACKER Horizon

This system includes TRACKER Monitor with GPS/GSM technology. Combined with TRACKER Monitor technology this system allows the TRACKER Control Centre to track your vehicle with GPS/GSM on a computer-based road map. This allows the Control Centre to communicate this information to the police. In conjunction with the on-board homing device, the police are able to ensure a safer and faster recovery of your vehicle, thus reducing the damage risk to your vehicle.

TRACKER Echo

This system is the leading category 5 tracking product in the UK. Driver Validation tags are used to confirm authorised vehicle movement. This means that in the unlucky event of the thief stealing the vehicle keys TRACKER Echo will monitor the vehicle movements. Once moved without the use of Driver Validation tags, the system will contact the TRACKER control centre. Vehicle key theft is a rapidly growing crime and this feature will enable faster access to your vehicles position.

Original BMW ColorSystem

HydroColor

Original BMW paints are subjected to intensive laboratory testing to ensure the highest possible colour fidelity and quality before they are approved for use by BMW.

It goes without saying that BMW also promotes the development and use of new environmentally friendly paint technologies. For example, 95% of all BMW cars are now finished with water-based paints.

Repairs to this paintwork can be carried out by your BMW Dealer using the Original HydroColorSystem.

The part number is dependent on your car's paintwork. Additional primers and fillers are required to ensure correct application. Your BMW Dealer will be happy to assist.
